Authorizations for Accessorial Charges

The managers and staff at Fastrucking understand and support our customers' need for ***authorizations on unexpected accessorial charges.***

However, we want to clarify the term unexpected when it comes to accessorial or special charges.

Fastrucking will call, e-mail, or fax you a "**request for authorization**" whenever there is a **change** in your order that will require additional accessorial charges. Whenever possible, we will request your authorization before the service is provided.

When your request for an order requires a special such as a lift gate, a convention, military, residential delivery, inside delivery or any other accessorial charge, **we will consider that order as authorization in itself, and we will not request additional authorization.**

For your convenience and review, we have attached a copy of our current accessorial charges. We appreciate your business and hope this bulletin will help clarify and streamline order processing.

Thank you,

FASTRUCKING
